WHEN SHOULD YOU OR A LOVED ONE SEEK THERAPY?

When you or a loved one is experiencing stress, depression, or anxiety that interferes with your or with his/her ability to perform daily activities...consider therapy.

If you are having difficulty making decisions, getting out of bed, interacting with family members or friends, or if you are experiencing a loss of appetite, or loss of sleep… consider therapy.

If you are injuring yourself, are addicted to food or substances… therapy would be helpful. If you are considering or have hurt or mutilated yourself… therapy is essential! If you have attempted suicide or are thinking about it… therapy is essential!

Call your doctor, one of the agencies or private practitioners listed in this brochure for an appointment.

If this is an emergency, call 911 or the Mental Health Hotline at (631) 952-3333 for immediate assistance.

Why Does Stigma Still Exist?

Fear — Lack of exposure

Misunderstanding — Outside pressures

Unfortunately, the media is responsible for many of the misconceptions which persist about mental illness.

Comedians make fun of those with mental illnesses.

What have you done to lessen the stigma?
What will you do in the future to promote understanding and acceptance?

RESOURCE CENTER TO ADDRESS DISCRIMINATION AND STIGMA

www.stopstigma.samhsa.gov
1-800-540-0320

How YOU Can Combat Stigma:

SHARE YOUR EXPERIENCES WITH MENTAL ILLNESS

Your story can convey to others that having a mental illness is nothing to be embarrassed about.

HELP PEOPLE WITH MENTAL ILLNESS REENTER SOCIETY

Support their efforts to obtain & maintain housing and jobs

RESPOND TO FALSE STATEMENTS ABOUT MENTAL ILLNESS OR ABOUT PEOPLE WITH MENTAL ILLNESSES

Many people have incorrect and damaging ideas on the subject… accurate facts and information may help change both ideas and actions
