

**TOWN OF SOUTHAMPTON
ENVIRONMENT DIVISION
NOTICE OF ADMINISTRATIVE WETLANDS PERMIT**

Permit No.: WAP21094 **Date of Receipt of Application: 03/10/2021**

Project Title: Robert Liberman and Barbara Liberman

Project Location: 373 Millstone Brook Road, North Sea

SCTM No.: 0900-110-02-1

Description of Permitted Activity: Management/enhancement of phragmites dominated wetlands, by selective hand cutting and removal of phragmites within designated wetland enhancement zones, with reed management to be phased-in and restricted to the western half of interior wetlands (Management Area #4), located immediately east of the smaller of the secondary cottages, during Year 1 of the term of the permit, and subsequently restricted to the easterly sector of same management area during Year 2 of the permit, with management measures in all sectors conditioned upon the use of hand rakes and leaf blowers to temporarily uncover existing skunk cabbage, and to guard against trampling, bruising, injury or damage to individual plants; and selective hand removal of mile-a-minute (*Persicaria perfoliata*) prior to flower and seedling, within and adjacent to wetlands, at residentially developed property, having frontage on Bullhead Bay and containing town regulated town and state regulated freshwater and tidal wetlands, in Tuckahoe, Town of Southampton, Suffolk County, New York, **in accordance with the “Robert Liberman Common Reed Management Plan” prepared by Inter-Science Research Associates, Inc., dated April 13, 2021, as well as the field guidance and instructions provided by the Chief Environmental Analyst on December 10, 2021.**
