

East End Substance Abuse & Mental Health Treatment Resources

Stay Physically And Mentally Healthy

The COVID-19 pandemic has been difficult for all Southampton residents to cope with – the abrupt change in our daily routines; the grief, anxiety and uncertainty that come with life during a pandemic, the loss of contact with family, friends, and support systems, and the extra self-care and hygiene that is required are challenging to both our physical and mental health. All these factors have resulted in a steep increase in reports of mental health needs among all groups and a sharp increase in substance use and abuse.

The good news is that there are available resources in our community ready to help you.

Take advantage of these resources as our community works to get back on track, call now!
