Re: Monthly Progress Report for May 10, 2022 to June 10, 2022
Former Damascus Landfill.
East Quogue, New York
NYSDEC BCP Site #C152253

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the remedial activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- D&B determined the best approach to developing a scaled base map for the project site.
- They also obtained a quote to have a surveying/mapping firm develop a scaled base map for the site that can be utilized to accurately locate on-site sample locations and other site features.

In the following month, we plan to perform the following:

- The Town provided the NYSDEC with a letter on May 9, 2022, summarizing the results of the most recent investigation phase completed in April 2022. The letter recommended including the installation of four sets of shallow and intermediate depth groundwater monitoring well clusters, one upgradient of the landfill and three along its downgradient boundary.
- We plan to hold a conference call between the Town and the NYSDEC to discuss these recommendations.

- We have tentatively scheduled the week beginning June 27, 2022 for a utility clearance and the installation of the on-site groundwater monitoring wells at locations, LBPB-1, LBPB- 3, LBPB– 4 and UGPB-2.

Please feel free to contact me at 631 283 6055 x 1865 if you have any questions.

Respectfully,

Francis Zappone
Deputy Supervisor
