Re: Monthly Progress Report for Oct. 10, 2022 to Nov. 10, 2022
Former Damascus Landfill.
East Quogue, New York
NYSDEC BCP Site #C152253

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the remedial activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- Drafted data summary tables for all groundwater samples collected in August 2022
- Completed additional round of water levels at the Site on October 21, 2022
- Drafted groundwater contour maps for August 9, 2022, and October 21, 2022
- Completed a spider diagram summarizing groundwater data collected in August 2022 along with existing groundwater data collected by D&B and the NYSDEC

In the following month, we plan to perform the following:

- Prepare a summary report discussing the on-site groundwater data collected in August 2022 and presenting recommendations for the location of the proposed on-site soil borings to be completed as part of Phase 4 of the Remedial Investigation.
- Begin the Phase 4 on-site soil borings.

Please feel free to contact me at 631 283 6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone
Deputy Supervisor
