**Re: Monthly Progress Report for Mar. 10, 2022 to Apr. 10, 2023**  
**Former Damascus Landfill**  
**East Quogue, New York**  
**NYSDEC BCP Site #C152253**

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the investigative activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- The Town completed the additional onsite soil sampling as recommended in the February 16, 2023, letter from D&B Engineers and Architects (D&B), completing Phase 4 of the RI.
- The Town advanced to Phase 5 of the RI in March with the completion of offsite vertical profile boring OSPB-2 that included the collection of eight groundwater samples for PFAS analysis.

In the following month, we plan to perform the following:

- Receive PFAS groundwater data for the eight samples collected from OSPB-2.
- Upon receipt of the PFAS groundwater lab data, D&B will draft a brief summary letter presenting the data and providing recommendations as to the depths and locations of the remaining offsite vertical profile borings.

Please feel free to contact me at (631) 283-6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone  
Deputy Supervisor
