Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the investigative activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- Received PFAS and full TCL/TAL data for on-site soil samples collected from on-site borings as part of Phase 4 of the RI
- Received PFAS groundwater data for the eight samples collected from OSPB-2 as part of Phase 5 of the RI.
- Reviewed data and developed recommendations for the continuation of Phase 5 of the RI.
- Submitted summary letter and recommendations for the advancement of Phase 5 of the RI to the NYSDEC and NYSDOH (attached).

In the following month, we plan to perform the following:

- Implement Phase 5 with the completion of off-site profile borings OSPB-1 and OSPB-3 with the collection of groundwater samples for PFAS analysis.

Please feel free to contact me at (631) 283-6055 x 1865 if you have any questions.

Respectfully,
