Re: Monthly Progress Report for March 1, 2024 to March 31, 2024
East Quogue, New York
NYSDEC BCP Site #C152253

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the investigative activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- On March 3, 2024, D&B identified potential locations for additional off-site groundwater monitoring wells to be installed in the Spring of 2024 as part of Phase 6 of the RI.
- The proposed location of all off-site groundwater monitoring wells was presented to the NYSDEC in a revised letter summary report submitted to the NYSDEC on March 11, 2024.
- Based on the revised letter summary report, the NYSDEC approved the proposed well locations on March 21, 2024.

In the following month, we plan to perform the following:

- Draft surface water/surface water sediment sampling work plan for submission to the NYSDEC/NYSDOH
- Advance the RI to Phase 6 which includes the installation of off-site groundwater monitoring wells.

Please feel free to contact me at (631) 283-6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone
Deputy Supervisor
